

(L-R) Leigh Swain, Historic Bath site manager, Dr. Ed Clement, president of the Historic Bath Foundation, and Peggy Daw, president of the Bath High School Preservation, stand in front of the Palmer House. Each represent organizations that received funds to preserve history in Bath and Beaufort County.

Bath Foundation honors three history preservers

BATH—The Historic Bath Foundation Inc. has awarded its annual grants to three applicants,

Bath High School Preservation window project received \$2,500, the Historic Bath Site received \$1,275 for textiles in the dining room of the Palmer Marsh house and the Historic Bath Site received

\$250 for bringing the past alive through storytelling by Terry Rollins during the "Past Times Day Camp" in the summer.

Such grants are advertised in January of each year and awarded in March.

The foundation awards grant funds for promotion and maintenance of the Historic Site or for assistance in research and study of mat-

ters of historic significance to Bath and Beaufort County every year.

Past grant award winners used the funds to produce and publish relative books, pamphlets and other printed materials to purchase, preserve and rehabilitate or restore significant structures, which have spe-

cial historical, architectural or aesthetic significance to sites in and around Bath and to implement educational programs of interest in the Bath Historic Site and the surrounding area.

If interested in preserving history in Bath and Beaufort County, please submit an application in January 2009.
