

PIRATE'S REVENGE

FIFTH EDITION

NOVEMBER, 2009

Message from Peggy...

The day has come and the time is now. Through a combination of confidence, immovable will, character, and a proven track record, we took the right course of action to carry through on our commitments. Specifically, the Town leaders and BHSP entered a long-term partnership as neighbors, and they will own the remaining portion of the original 2.61 acres of the Bath High School property, as the section facing Carteret Street is deeded to us.

We are awaiting the final closing on the purchase of the oldest structures, which

was originally completed circa 1921 under the notable leadership of the first all-female mayor and council in the Southeastern USA. At a time when women were just being given the right to vote, our forward-thinking town moved them into leadership positions. Although mostly dormant since 1989, these three buildings occupy close to an acre in the heart of the historic district and offer over 30,000 square feet of wonderful space, ideal for local businesses and cultural attractions to set up shop. Featuring 12-foot bead-board ceilings, original heart pine, 6 over 6 paned double-hung sash windows, and hardwood floors throughout the buildings, this well-connected layout is known for its open space and natural light.

Our board will be seeking community input to move ahead, so please come to our meetings and offer your professional or well-considered recommendations. We seek to be inclusive with an open mind as we act as stewards of this historic property. We recognize the place it holds in our community and have valued it with our time, energy, and personal resources. I extend my warmest thanks to each of you for helping us with our accomplishments to date!
